Professor Huxley says that Lord Salisbury has set the seal of his authority upon the doctrine of evolution.

Our neighbor the Tribune has dropped personalities and got down to political discussion. Not a bad idea.

The steamer Balmoral reached Gravesend Thursday with four cases of cholera on board. One seaman died the day before.

Kate Field, who never had any babies, publishes an article in her paper giving mothers advice in regard to the nursing of children. Considerable cold gall about Kate at times.

An English firm has made a proposal to the Chilean Government to purchase the war-ships the Emerald, the Cochrane, the Condell and the Lynch for the Chile. The offer was not entertained.

James Hardy, colored, aged ninety-nine years, died at Hope, Ohio, on Tuesday. He was a native of North Carolina and during the war served as Jefferson Davis' body valet. He was married six times and was the father of forty-six children.

A fatal disease has appeared among the cattle of Churchill county. The trouble seems to be mostly in the head and throat. Some run at the nose and live several days; others have a swelling in the throat and die very quickly. A great many cattle in good condition and apparently healthy one day die the next.

The War In The Orient.

London, Aug. 10.—The correspondent of the Times at Tien Tsin declares that the report that the rank of Li Hung Chung has been reduced by the Imperial command is entirely unfounded. The report that the Chinese General Yien was killed in battle with the Japanese forces at Anan is also declared as not true. Further denial is made of the report that the Chinese steamer Cowagui has been sunk. The Chinese Government has ordered the authorities throughout the Empire to protect foreign missionaries.

Berlin, Aug. 10.—A dispatch to the Tagblatt from St Petersburg says: In addition to the eight Russian warships which sailed recently from Vladivostok under sealed orders for Corea, the Commander in Chief of Eastern Siberia is being instructed to hold troops in readiness to march at any moment.

The dispatch also states that France has declared her readiness to co-operate with the Russian fleet in the Far East.

Worden's Record.

It has been claimed that Worden, the man accused of wrecking the Southern Pacific train, was a "persecuted man." It now transpires that he is not. He was convicted of forgery in New York and served a year in States Prison. He was also convicted of petit larceny and sentenced for six months. The prosecution so far has made out a very strong case against him and his previous bad record comes in with additional force at the present time.

The Garaventa Fire.

Joe Garaventa, whose house was damaged by fire, says that it was the work of an incendiary. When he reached the house he found his trunk smashed open and about four hundred dollars that was in the pocket of a pair of pants in the trunk was missing. He says he has a clew to the parties and will make it hot for them.

In Memoriam

The APPEAL has been requested to publish the following resolutions adopted by Truckee Lodge No. 4 of Reno.

We, your committee appointed to draft resolutions of respect and esteem regarding the death of our late Brother M. D. Foley, Past Grand, beg leave to submit the following:

Whereas, It having pleased our Grand Master of the universe to call from our humble lodge on earth to the Grand Lodge on high, our well beloved Brother M. D. Foley, P. G., and realizing the loss we have sustained, and as an evidence of our desire to cherish and perpetuate his memory, be it

Resolved, That in the departure from our immediate presence of our honored brother, we feel that he is not dead, for what we admire and cherish and venerated in him is alive for evermore.

Resolved, That Truckee Lodge No. 14, I. O. O. F., deeply feels the sad bereavement, and appreciating while in the midst of life we are in death, cherishes a lively recollection of his manly virtues, and offers his heartfelt sympathies and condolence to his widow, who, with us, sadly mourns his loss. And be it further

Resolved, That the resolutions be spread in full upon the records of this lodge, and a copy of the same be forwarded to the widow of our deceased brother, under the seal of the lodge, that our charter be suitably draped in mourning thirty days, and these resolutions be printed in both the daily papers at Reno. His frankness of nature and kindness of heart.

Made friends of acquaintances, right from the start.

In deepest affliction his sign of distress

Was answered by many, whose love they confess.

That a loss we here deeply allow

Before his Omnipresence we all meekly bow.

Record these, our minutes, and send to the press.

And then hand a copy to her in distress.

Respectfully submitted in friendship, love and truth.

Fillmore After the Strike Leaders.

San Francisco, Aug. 9.—The Examiner says: "General Supt. Fillmore of the Southern Pacific was asked today whether his company is preventing members of the A. R. U. who engaged in the strike from getting employment of any kind. We have no use for men who engaged in the late strike and will not encourage them in any way."

"Suppose these strikers should obtain employment would your company go out of its way to have them discharged?" Was asked.

"Yes," answered Mr. Fillmore, "if I knew that a man was not true to this company and if I find out that a man has got a job anywhere I will pursue him and use my best efforts to get him discharged. These fellows who killed our engines, destroyed our property and murdered our employees shall never earn bread and butter in California if I can help it. Against those men who did not take an active part in the strike, I have nothing to say. I have no bitter feelings against them. When we need their help we will hire them again, for we do not consider that they were altogether to blame, but for those who led the strike we have no consideration. I have no use for fellows of that kind and do not intend that they shall make a living as long as they are within my reach."

The Cooling Politician.

The idea of a newspaper working for glory and boosting candidates into public favor is growing "beautifully thin." It takes money to conduct the publication of the Mountain Echo, and the candidates who desire to be boosted into notoriety and have the bright side of their characters painted in the columns of this paper during the opening campaign, will find they will have to pay for space in the Echo just the same as any other advertiser will have to do. Fine promises, honeyed words and the like, are played out. We have lived on promises these many years past and have grown so thin and gaunt that every politician we meet thinks we are consumptive. However this may be, we still retain our faculties, as some of the tender-flunked politicians will find out before the campaign is over.—Cal Echo.

Funds Needed.

The General Secretary of the A. R. U. at Chicago, under date of the 4th inst., writes to me concerning funds needed to employ legal talent in behalf of organized labor. Friends of Humanity, who prefer the settlement of such a question in a Court of Law rather than elsewhere, can assist by contributing toward a common fund for legal defence of the A. R. U. I will gladly remit all sums handed me.
